DIOCESE OF KITALE

Secretariat Management System

Super Administrator
User Guide

User Guide • 2026

1. Welcome, Super Administrator

As Super Admin you have the highest level of access in the Secretariat Management System. This guide walks you through every area you control: user roles, departments, fleet, diocesan events, work plans, attendance, and the Secretariat Staff roster.

Signing in

- Open the system and click Sign In.
- Enter your registered email and password.
- If you forget your password use the Forgot Password link on the sign-in screen.

Your sidebar at a glance

- Dashboard — overview metrics.
- Work Plans, Vehicle Requests, Drivers Log, Daily Log, Monthly Reports — same modules every user sees, but you can view across all departments.
- My Department — your own departmental view.
- Leave Requests, Diocese at a Glance — diocesan-wide visibility.
- Secretariat Staff — full staff roster grouped by department (HOD on top).
- Archive — your own private archive (password protected).
- Administration — collapsible group containing all admin tools.
- User Guide — this document.

2. Administration menu

Open the Administration group in the sidebar to access these tabs. Each opens within the /admin page.

Vehicle approvals

- Review pending vehicle requests submitted by users.
- Approve, decline, or reassign a vehicle and driver.
- Approved requests automatically notify the requester and the driver.

Fleet

- Add, edit, retire vehicles.
- Record registration, capacity, fuel type and current status.
- Assign a default driver when applicable.

Diocesan events

- Create events visible to every user under Diocese at a Glance.
- Set title, date/time, location and description.
- Edit or delete past events to keep the calendar tidy.

Departments

- Create new departments or rename existing ones.
- Assign one HOD per department — the HOD then manages staff under My Department.

Users & roles

- Invite new users by email.
- Assign roles: super_admin, administrator, hod, staff, driver.
- Revoke access by removing a role. A user can hold multiple roles.

Work plans

- See every work plan submitted across the diocese.
- Filter by department, user, week or status.
- Download a plan as PDF for sharing or filing.

Logs & plans cleanup

- Archive or delete obsolete daily logs and work plans.
- Use this tab sparingly — deletions are permanent.

Office attendance

- View every sign in / sign out event from staff.
- Filter by date range, department or person.
- Export attendance for HR records.

3. Secretariat Staff roster

The Secretariat Staff page lists every staff member submitted by HODs under My Department. Staff are grouped by department with the HOD listed first.

What you can do

- Browse all departments in one place.
- See full details exactly as the HOD entered them (name, position, contact, etc.).
- Download a PDF of the entire roster for printing or board meetings.

Tip

If a department appears empty, the HOD has not yet added their staff. Send them a reminder; the data is HOD-managed.

4. Daily routines for Super Admin

Every morning

- Check the Dashboard for pending approvals and unread notifications.
- Approve any urgent vehicle requests submitted overnight.
- Review the office attendance for late arrivals.

Every week

- Glance through all departments' work plans.
- Verify the diocesan events calendar is up to date.
- Check that every active user still has the correct role.

Every month

- Download Monthly Reports per department.
- Export the Secretariat Staff PDF after HODs confirm changes.
- Back up your private Archive notes if applicable.

5. Security & private Archive

Like every other user, you have a private Archive (sidebar → Archive) protected by a password you create. Documents, calendar events and notes saved there are visible to you only — not even to other Super Admins.

- First visit: set a password (minimum 6 characters).
- Forgotten password? Use the Reset link on the unlock screen and re-verify with your account login password.
- Lock the Archive when stepping away from your computer.

Account security

- Never share your sign-in credentials.
- Use a strong, unique password for the system.
- Sign out at the end of every day, especially on shared devices.

6. Troubleshooting

Issue	What to do
A user can't see a menu they should	Open Users & roles, confirm their role assignment.
HOD can't add staff	Make sure they are assigned the hod role AND linked to a department.
Vehicle request stuck	Open Vehicle approvals → check the status filter is set to Pending.
Department missing from Secretariat Staff page	Verify the department exists under Administration → Departments.
Forgotten Archive password	Use Reset on the Archive unlock screen and supply your account password.

For anything not listed here, contact the system administrator listed in your onboarding email.
