DIOCESE OF KITALE

Secretariat Management System

Driver
User Guide

User Guide • 2026

1. Welcome, Driver

This guide explains how you use the Secretariat Management System as a driver. Your main responsibilities in the system are: viewing assigned trips, keeping the Drivers Log up to date, and recording your daily activity.

Signing in

- Open the system on your phone or computer.
- Click Sign In and enter your email and password.
- If you forget your password use the Forgot Password link.

Your sidebar

- Dashboard — your personal overview.
- Vehicle Requests — see trips assigned to you.
- Drivers Log — record fuel, mileage and trip details.
- Daily Log — short notes of what you did each day.
- My Department — view your department's staff and HOD.
- Archive — your own private locker (password protected).
- User Guide — this document.

2. Vehicle Requests assigned to you

When the Administrator approves a vehicle request and assigns you as driver, it appears in your Vehicle Requests page and you receive a notification (bell icon, top right).

- Open Vehicle Requests and check the date, destination, requester and passengers.
- Confirm you have read the trip details before the departure time.
- Contact the requester if any detail is unclear.

3. Drivers Log

Drivers Log is the official record of every trip you make. Keep it accurate — it feeds into monthly fleet reports.

For each trip record

- Vehicle used.
- Date and time of departure and return.
- Starting and ending mileage (odometer).
- Fuel added (litres / cost) if applicable.
- Destination and purpose.
- Passengers, if relevant.

Best practice

- Fill in the log immediately after each trip, while details are fresh.
- Photograph receipts for fuel and parking; keep the originals for finance.
- If the vehicle has a mechanical issue, note it on the log and inform the Administrator the same day.

4. Daily Log

Use Daily Log to write a short summary of your working day — even on days without trips (e.g. vehicle washing, servicing, standby).

- Keep entries short and factual.
- Submit at the end of every working day.
- Past entries are visible to your HOD and the Administrator.

5. Office attendance

Use the Sign in / Sign out of office button (top-right of the page) when you arrive and leave the secretariat. This contributes to the office attendance record.

6. Private Archive

Archive is your personal, password-protected space. Use it to keep copies of your driving licence, insurance, training certificates, personal calendar and any notes.

- First visit: set a password (minimum 6 characters).
- Upload documents (PDF, images, etc.) — only you can see them.
- Use the calendar to mark personal reminders.
- Use the notes area for short personal information.
- Forgot password? Click Reset on the unlock screen and re-verify with your sign-in password.
- Always Lock the Archive when finished.

7. Troubleshooting

Issue	What to do
I don't see a trip I was told about	Refresh Vehicle Requests; if still missing ask the Administrator to confirm the assignm
Wrong vehicle assigned	Notify the Administrator immediately — do not change it yourself.
Forgot Archive password	Use Reset on the unlock screen with your sign-in password.
Notifications not appearing	Check the bell icon top-right; ensure you are signed in.
App slow on phone	Close other apps; use a Wi-Fi connection where possible.
